

Date: 2018-09-24

Attention: Customs

Dear Customs Service and Agents,

Enclosed in this shipment are materials that have no commercial value and are for scientific research purposes only. The materials are non-hazardous, non-toxic, and non-pathogenic.

The contents of this package are:

1. Three (3) tubes each containing 25 microlitres of DNA in sterile buffer.
HS Code: 2934
Value: \$1
2. Two (2) tubes each containing 1 millilitre of bacteriophage in sterile buffer.
This material is a microorganism that poses no danger to humans.
HS Code: 3002
Value: \$1
3. Two (2) tubes each containing 1.5 millilitres of frozen bacterial culture.
This bacterium is a microorganism that is commonly found in normal, healthy individuals.
HS Code: 3002
Value: \$1

This package is **temperature sensitive**, contains **dry ice**, and requires shipping in a timely manner. Should this package be detained at Customs, please hold with refrigeration if possible.

If this information is not sufficient, please contact Dr. Kathy Lam at the University of California, San Francisco. Email: kathynguyen.lam@ucsf.edu; Phone: (415) 960-9470

Thank you very much,

Kathy N. Lam
